Is an Investment Advisory Account right for me?

There are different ways you can get help with your investments. You should carefully consider which types of accounts and services are right for you.

We are an investment advisor and provide investment advisory services rather than brokerage services. This document gives you a summary of the types of services we provide and how you pay. Please ask us for more information, and additional question suggestions are shown in the blue text boxes.

Additionally, you will find free tools to research firms and financial professionals at [Investor.gov/CRS](https://www.investor.gov/CRS).

Relationships and Services

What investment services and advice can you provide me?

- *When you open an advisory account, you will pay an on-going fee based on the value of your assets on a quarterly basis.*
- *We will offer you retirement planning, investment management services and provide financial advice on a regular basis. We will discuss your financial goals and design an investment strategy and/or financial plan to help you achieve your goals. We will regularly monitor your accounts and on a quarterly basis, we will provide you an update on your account by phone, email, statements, or quarterly updates.*
- *We may also serve retirement plans where we provide non-discretionary investment advisory and consulting services.*
- *We may provide financial planning services and typically have a minimum fee of \$5,000 per year, payable at \$1,250 per quarter.*
- *We manage accounts on a discretionary basis, which means you give us the authority to make trades in your accounts without asking you in advance. We can select any investments available through the custodian you select to hold your assets. We do not have a minimum account size.*

For additional information about our services please refer to our ADV Part 2A and scroll to Items 4, 5 and 7.

Fees, Costs, Conflicts and Standard of Conduct

What fees will I pay?

- For advisory services we charge an ongoing fee that is based on the value of your assets. Our maximum annual fee is 1.25% and varies based on the level of assets, and services offered. We have clients on a different fee schedule based on a familial relationship, grandfathered fee, or otherwise negotiated arrangements.
- In addition to our advisory fees, you are also responsible for all fees charged by the custodian (firm that holds your assets), as well as fees charged by the actual investments (internal expenses in mutual funds and exchange-traded funds, etc.).
- You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce the money you will make over time. Please make sure you understand what fees and costs you are paying. If helpful, ask us to explain the fees and costs to manage \$1,000,000 for you. For more information on our fees, please refer to our ADV Part 2A and scroll to Item 5.
- The nature of our fee creates a conflict of interest to obtain as many of your assets as possible to generate more fee revenue. Additionally, some of our Representatives may also sell insurance products. This can create a conflict where the commission proceeds are higher than advisory fees.

When we act as your investment advisor, we must act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests.

For more information on conflicts, please refer to our ADV Part 2A.

How might your conflicts of interest affect me, and how will you address them?

What are your legal obligations to me when acting as my investment advisor?
